

Upload & Job Monitor

Upload predictions and monitor benchmarking jobs

Upload Prediction File

Drag and drop your file here

or click to browse

Choose File

Supported formats: CSV, TSV, TXT (max 50MB)

Job Configuration

Dataset

hESC

Algorithm

GENIE3

Algorithm Version

e.g., 1.2.0

Run Name

Optional custom name

Evaluation Options

- ☒ Compute PR/ROC curves
- ☒ Calculate early precision
- ☐ Motif enrichment analysis

Expected File Format

 Download Template

```
# Gene Regulatory Network Predictions
# Format: source_gene target_gene confidence_score
SOX2    NANOG    0.947
OCT4    SOX2      0.923
NANOG    KLF4      0.891
MYC      SOX2      0.867
KLF4     MYC       0.834
SOX2     UTF1      0.812
NANOG    DPPA3     0.789
```

File Requirements:

- Tab-separated or comma-separated values
- Three columns: source gene, target gene, confidence score
- Score range: 0.0 to 1.0
- Gene names must match dataset identifiers
